

**PhD students and postdoc educational program 160601**Medicon Village, Building 406, Scheelevägen 2, Lund [www.mediconvillage.se/sv](http://www.mediconvillage.se/sv)

The program is dedicated to inform you and give basic knowledge on clinical trials from bed-to-bench and from bench-to-bedside. The day starts with an overview lecture on the principles for early phase I-II trials followed by three experienced PI:s on how to start investigator initiated trials for breast cancer, lymphoma and renal cancer.

The retreat is open and free of charge for graduate students and young postdocs registered as members of the BioCARE Research School. For information on how to register, send an email to [kristin.lindell@med.lu.se](mailto:kristin.lindell@med.lu.se) or [ulrika.lantz.carlsson@gu.se](mailto:ulrika.lantz.carlsson@gu.se)
